

**738 | Woven Crypton****CLEANING CODE**

C: Crypton Cleaning - Crypton fabrics are available in various fiber types, and all Crypton fabrics can be cleaned with soap and water. For the best cleaning solution, use CRYPTON UPHOLSTERY CLEANER, available from Mayer Fabrics.

W: Water-Based Cleaner - Spot clean, using the foam only from a water-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Always rinse promptly with clean water. Vacuum when dry. Pretest small area before proceeding.

BC: Bleach Cleanable - 1 parts bleach, 9 parts water = 10% bleach, 90% water solution. Do not clean / disinfect fabric for longer than 10 minutes using the 10% bleach solution. Always rinse promptly with clean water after applying the bleach solution. Failure to do so will void any and all warranties.

Please note: If specific cleaners are not listed, then the pattern has not been tested for cleaning solution compatibility.

| KEY                                 | DEFINITION   |
|-------------------------------------|--|
| <b>Approved   No Effect</b>         | No change in color or surface finish.  |
| <b>Approved   Slight Effect</b>     | A change in color or surface finish only visible at certain angles.  |
| <b>Approved   Moderate Effect</b>   | A change in color or surface finish visible from all angles and directions, but does not appreciably alter the original condition of the material. |
| <b>Not Approved   Severe Effect</b> | A change in color or surface finish, which obviously and markedly alters the original condition of the specimen.                                   |

The results for the cleaners/disinfectants listed does not imply "approved" or that the results are guaranteed. These evaluations are indicators after laboratory testing and may not be indicative of field performance. Customers should first determine if products are appropriate for use on their surfaces. The majority of today's disinfectant chemistries are mainly designed for use on hard environmental surfaces such as ceramic, porcelain, laminate, steel etc. After each application these types of disinfectants on seating surfaces the surface must be wiped with clean water and dried with a clean towel to remove any chemical residue that could eventually discolor or degrade the material surface.

Failure to follow the above dilution recommendations, directions when using using these types of cleaners/disinfectants or the application of a clean water rinse after each application can expedite a product failure and will void any warranty claim.
